

Slip and slide stroll

Further to Rita Saffioti's column (21/5), I find it strange such an important update announcement on the breakdown of the exorbitant costs of Perth Park needs to highlight it includes "limestone tracks". I cannot imagine this would be something to look forward to in damp or wet conditions.

Perhaps, for \$217 million, they might consider sealing them or providing slip-on boots if the anticipated overrun of costs will not allow it.

Wrong priorities.
