

Take Miller's advice

Reading of our Premier blaming the population boom and the private sector for the disgusting treatment of the young couple who were sent from Midland Hospital to Rockingham and the traumatic event of giving birth on the side of the freeway (*News*, 10/2), I would encourage Roger Cook to read Andrew Miller's opinion piece on the very next page, headlined: "Never miss chance to zip it."

After reading it, Cook should probably pass it on to Rita.

Irene Sanderson, Kalamunda

Roadside amenities

With our world-class health system now using the side of Kwinana Freeway as a birthing suite, I wonder if the money being wasted on the race rack in Burswood is going to include hospital beds on the corners in case of accidents?

I think West Australian residents deserve more than the "blah, blah, blah that constantly dribbles from Roger Cook and Rita Saffioti's mouths.
