

BUILDING
FOR
TOMORROW

PERTH'S PREMIER ENTERTAINMENT AND SPORTING PRECINCT UNDER CONSTRUCTION

Perth Park will be a world-class destination for sport, entertainment, and community use, helping diversify the state economy and create local jobs.

The design of the park includes an outdoor music amphitheatre and festival space, a multi-use building,

a hospitality venue, and a multi-purpose track for cycling and an annual motorsport event.

The project will enhance the natural environment, with tree canopy to be more than doubled including a new urban forest, with an improved path network for greater community use.

With new public spaces and amenities, Perth Park will support active lifestyles, bring people together, and create a vibrant parkland for all to enjoy.
