Diversionary spin

More garbage, diversionary spin for the plebs from Premier Roger Cook pleading for money from the Albanese Government for aged-care beds to ease the pressure on hospitals and ambulance ramping "Premier to beg for beds", TST, Aug 10).

As incompetent as the Commonwealth Government is in some areas, it is not gullible enough to fall for the plea. They know the WA Government's priorities are spending money on a rugby team and car racetrack.
