

Good docs, bad system

I have a correction for the Right Honourable Mr Roger Cook, Premier of WA.

Six days ago, I had a total knee replacement surgery, and I can confirm the following information:

We do not have a world-class health system.

What we do have, however, is world-class healthcare professionals at all levels.

Bin the racetrack and the other ego projects now and give our wonderful healthcare professionals the facilities they deserve.

David Lovett, Eaton
