

Selective hearing

Rita Saffioti says she is surprised by the number of people wanting to have a say in regards to the State's GST share ("Show us the GST money", TST, Feb 22).

Why does she not listen to the number of people having a say on what she wastes the State's money on, like the racetrack and rugby team? Maybe those things don't register in her self-centred focus, alongside her mate Roger the Dodger Cook.
