

Yet more concerns

Such a lot has been said about Rita's racetrack with its airy-fairy time and cost "budget" and the contract to have it finished in time for the V8 Supercars in 2027. Has Motorsport Australia said it will license the track?

Are the Supercars actually contracted to use the track and what is the amount the Supercars organisers will charge to bring the race to Burswood? Are you intending for there to be two Supercars events or does the raceway in Wanneroo miss out? Will any compensation be demanded by the WA Sporting Car Club for the loss of their (I imagine) biggest earner each year?

Formula One or Moto GP are unlikely to add Burswood to their calendar without many millions of dollars paid to their sanctioning bodies each year.

So all I can see is a huge white elephant used maybe one weekend a year. Not good value in my book. Its only well attended event is likely to be the Ben Harvey nudie run!

Richard Spivey, Bunbury
