

Admin Alert: Save Burswood Park Alliance

Budget Reflections

As expected the budget contained significant money for Rita and Roger to proceed with the planned Burswood Motorplex despite the ongoing and significant community opposition. We knew this was part of the plan to try and make those opposed to this project feel helpless and hopeless.

WE ARE NOT AND WE WILL FIGHT ON!!!!

Key thoughts on the budget

- How can \$217 million dollars be allocated for a project that still has no business case, no cost/benefit or environmental assessment?
- How can the government ignore the significant protests of the local community and strong objections from many cyclists and motor enthusiasts and simply move ahead with the project?
- Why have they funded this project but have not yet engaged with the Whadjuk Aboriginal Corporation who are the legal custodians of the land under the Aboriginal Heritage Act? Reg Yarran, the chair of WAC has indicated their strong opposition, with the group considering legal action.
- What is the involvement of private businesses Crown and Supercars Australia in pushing this through – we are endeavouring to find out more?

The Save Burswood Park Alliance Committee urge you to keep up the pressure, don't give up and voice your opposition strongly. Continue to write to Labor and Liberal politicians. We have to keep up the momentum.
