

Did I miss the memo?

I noticed (*News*, 14/7) that the State Government has called for public opinion in relation to State holidays. As a retiree every day is a holiday. However, I am concerned that perhaps I missed a similar request by the Government on having a rugby team and also a car racing circuit at Burswood. I can remember Burswood as a swamp with one lone house in the middle. It is now a magnificent site and available for all to enjoy. This Government plans to desecrate the site with such a proposal. Are they frightened by what the response will be if such was called? Probably too late on the rugby, but not for Burswood.
