

Cook is cooked

Thank you to Lesley McKay (*Letters*, 20/3) for highlighting the devastation in destroying Burswood Park and all its beautiful mature trees and birdlife.

All this is to be replaced with an expensive monstrosity of a concrete racetrack that the majority of people do not want.

It's an absolute disgrace and so short-sighted of Roger Cook and his offsider Rita Spendalotti.

Cook is on borrowed time as Premier — after all, he only got the position of Premier by default when Mark McGowan resigned.

Labor won't be getting my vote at the next State election or that of many others, I daresay.

Ingrid Rickersey, Bunbury

Not always four years

I read that it has been four years so far since coercive control laws were mooted in Parliament, and they are still ongoing.

Planning for Rita's racetrack never even got put to a vote, and now that project has started.

Roger's rugby side never got put to a vote, and now they are very much under way.

Maybe it's me, but I think something in Government is way, way out of whack in this State of Western Australia.

Garry Williams, Dudley Park

Already across it, thanks

I can't understand why the other States think they deserve more of our share of the GST.

After all, Roger and Rita can waste our money far better than they'll waste it!

John Warren, Morley
