

Fun for everyone

So many negative vibes about the racetrack. I can't wait! The Government could sponsor the racing of Mario carts (electric, of course). We public would hire them for a fang around the track. Each week, the fastest 20 run off in the Mario cart GP. The flagging TAB could be given exclusive betting rights. The 20 fastest GP winners for the year race off to be State champion.

Let's expand this to e-scooters. Catering for all ages. Embrace the older generation with the Gopher challenge. Golfers could have a swing with the golf buggy bash. This track is up for so much community involvement, Supercars events will need to be booked well in advance. I'm frothing in anticipation.
